### PROJECT EXPERIENCE

- **VaibhavLaxmi:** -  
- **Description:** Financial Management Software that Manages the Customer Loan, Pending Load Amount, due Amount, Interest Amount, Monthly Installment, Daily Installment, Short-term Load, Long-term Loan, etc., and also manages multiple Branch for Amount Collection and Loan.

- **Technology:** .NET Core Web API, Angularjs, MS SQL
- **Role:** Jr. Web Developer

- **SemiconReferrals:** -  
- **Description:** The Online Job Portal Software efficiently manages candidates and employers. The primary objective of this software is to identify suitable profiles based on predefined recommendation criteria and suggest them to the respective employers for their job openings. Users can refer others for job postings and earn rewards, promoting networking and connections within the platform.

- **Technology:** .NET Core Web Api, Angularjs, MS SQL
- **Role:** Jr. Web Developer

- **Memoriesnsmiles:** -  
- **Description:** Developed and managed the 'memoriesnsmiles' event management platform, enabling seamless booking and organization of events like weddings, parties, and birthdays. The platform offers services such as return gifts, photography, catering, and makeup, allowing users to customize their events with specific items and get real-time quotations. This project streamlined event planning by integrating comprehensive solutions, enhancing user experience and ensuring stress-free event coordination.

- **Technology:** .NET Core Web Api, Angularjs, MS SQL
